Frequently asked questions(FAQs)

General Queries

1. What is the Kisan Credit Card (KCC) scheme, its evolution, and the associated Interest Subvention Scheme (ISS) and Modified Interest Subvention Scheme (MISS)?

The Kisan Credit Card (KCC) was introduced in 1998 to provide farmers with credit for agriculture inputs and production needs. It has since expanded to include investment credit and allied activities. In 2006-2007, the Interest Subvention Scheme (ISS) began, offering KCC loans at 7% interest. ISS includes Interest Subvention (IS) and Prompt Repayment Incentive (PRI). The Modified Interest Subvention Scheme (MISS) is a variant, offering 7% interest for short-term agriculture loans up to Rs.3.00 lakh through KCC. MISS covers activities like Animal Husbandry, Dairy, and Fisheries.

2.Who is eligible for Kisan Credit Cards (KCCs), how are credit limits determined, and which institutions can issue KCCs?

KCC eligibility includes owner cultivators, tenant farmers, oral lessees, sharecroppers, and SHGs/JLGs. Credit limits are calculated based on cropping patterns and purpose. Short-term limit includes scale of finance, cultivated area, and expenses. Term loan limit considers proposed investments. The Maximum Permissible Limit (MPL) for the 5th year is the card limit. KCCs are issued by Public Sector Banks, Private Sector Scheduled commercial Banks, Small Finance Banks, PACS ceded with SCBs, RRBs, and Rural Cooperative Banks.

3.How does the repayment process work for Kisan Credit Card (KCC) loans and what is the validity of a KCC?

Repayment of KCC loans is aligned with the anticipated harvesting and marketing periods for the crops for which the loan has been granted. Each withdrawal under the short-term sub-limit can be liquidated within 12 months without needing to bring the debit balance to zero. The repayment methods include using KCC-Rupay Card while receiving payments from commission agents of Kisan Mandies, through bank branches or banking correspondents, or using hand-held machines. The term loan component is usually repayable within 5 years, with flexibility for longer repayment periods based on the type of investment.

A KCC is typically sanctioned for a 5-year period and undergoes periodic review. The review may result in continuation, enhancement, or cancellation of the facility, based on changes in cropping area, pattern, and the borrowers performance.

4.What are the roles and responsibilities of different financial institutions in the Kisan Credit Card (KCC) scheme?

In the KCC scheme, various roles and responsibilities are assigned to different levels of financial institutions:

- Bank Branch: The bank branch is responsible for processing KCC applications, verifying eligibility, conducting pre-sanction visits, entering application details into the portal, and disbursing funds. They also handle IS and PRI calculation and submission of claims.

- Regional Office: The regional office reviews sanctioned KCC loans for adherence to scheme guidelines and verifies IS/PRI claims submitted by branches.

- Zonal Office: The zonal office consolidates IS/PRI claims from regional offices, approves deviations if requested by branches, and submits claims to higher authorities.
- Head Office: The head office consolidates IS/PRI claims verified by zonal auditors and submits them to the Reserve Bank of India (RBI).
- Cooperative Banks: Primary Agricultural Co-operative Societies (PACS), District Central Co-operative Banks (DCCBs), and State Co-operative Banks (StCBs) have specific roles in processing, verification, consolidation, and availing refinance for KCC loans.

These roles ensure the smooth implementation, verification, and financial support of the KCC scheme.

5.How can a Bank HQ Admin or Bank Branch Admin create a new user on the KCC-ISS portal?

To create a new user on the KCC-ISS portal, the Bank HQ Admin or Bank Branch Admin needs to follow the steps below:

1. For creating a new branch Admin, the Bank HQ Admin should log in to the PMFBY-portal.
2. For branch user creation, the Branch Admin should log in to the PMFBY-portal.
3. On the User Console page of the PMFBY-portal, there will be an option to create new users.
4. The Admin should provide the required details of the new user, such as Name, Designation, Official e-mail, and Mobile number.
5. After filling in the necessary information, the Admin should submit the user creation request.

6.What are the roles and login credentials available for users on the PMFBY-portal to work on the KCC-ISS portal?

The following roles (and their corresponding login credentials) are available for users on the PMFBY-portal to work on the KCC-ISS portal:

1. Bank HQ Admin: This role has administrative privileges at the banks headquarters. They have the authority to create and manage users on the KCC-ISS portal.

2. Bank Branch Admin: This role is responsible for managing users at the bank branch level. They can create and manage branch-level users on the KCC-ISS portal.

3. Bank Branch-user: This role is assigned to users at the bank branch. They have specific access permissions granted by the Bank HQ Admin or Bank Branch Admin.

7.What should a bank do if they do not have HQ Admin credentials on PMFBY to create a new branch Admin or user?

If a bank does not have HQ Admin credentials on PMFBY to create a new branch Admin or user, they should follow the steps below:

1. The banks authorized signatory should draft a letter on the banks letterhead.
2. The letter should be addressed to the CEO of PMFBY (Department of Agriculture & Farmer Welfare) and should request the creation of HQ Admin credentials.

3. The letter should include the following details of the person requesting the credentials: Name, Designation, Official e-mail, and Mobile number.

4. The bank should send a soft-copy of the letter through its official e-mail account to the specified recipients: anil.kumar004@gov.in, kartikey.upadhyay@aurionpro.com, and copy to ajay.k.singh@nic.in.

5. Once the HQ Admin credentials are obtained, the Bank HQ Admin can proceed to create new branch Admins or users on the PMFBY-portal.

8.What are the three modes of data transfer between the KCC-ISS portal and financial institutions?

The three modes of data transfer between the KCC-ISS portal and financial institutions are as follows:

1. End-to-end electronic mode: In this mode, complete data of farmers/borrowers of KCC, including information about loans sanctioned and eligible interest subvention claims, is transferred electronically through API services. The banks integrate their Core Banking System (CBS) or Middleware with the KCC-ISS Portal to facilitate this data transfer.

2. Hybrid entry mode: This mode involves partial data transfer through API services by integrating the CBS/Middleware of the respective banks with the KCC-ISS Portal. However, some fields that are not available in the CBS/Middleware need to be manually entered on the KCC-ISS portal by the respective bank branches using specific login credentials. In case on any missing value in specific fields banks can pass $ value and later the application can be updated and submitted by branch. Some of the field are mandatory and greyed out they cannot be selected as 'No'.

3. Manual entry mode: In this mode, complete data of farmers/borrowers of KCC, along with information about loans sanctioned and eligible interest subvention claims, is directly entered on the KCC-ISS portal by the respective bank branch users. They use specific login credentials created for them on the Pradhan mantri fasal bima yojana (PMFBY). Branch user will create the application and the same has to be approved by the branch admin, This is implemented for both loan application and subventions.

9.How does the Hybrid entry mode work for data sharing between the KCC-ISS portal and banks? What are the steps involved in this mode?

In the Hybrid entry mode, the data sharing between the KCC-ISS portal and banks involves the following steps:

1. Bank HQ Admin flags fields: The Bank HQ Admin marks the fields as Yes that are available in their CBS/Middleware. These marked fields will be uploaded electronically through CBS (APIs). Remaining fields that are not available in the CBS/Middleware will be marked as No, and they need to be manually entered by the bank-branch users. Some of the field are mandatory and greyed out they cannot be selected as 'No'.

2. Partial data through API: The fields marked as Yes are transferred electronically through API services and displayed in read-only mode to the branch users. The application will not be considered complete until the remaining fields are manually entered by the branch users.

3. Updating field-configurations: Banks can update field-configurations (hybrid mode) as per their requirement, but this should be done only when there are no batches under processing.

10.How does the Manual entry mode work for data sharing between the KCC-ISS portal and banks? How do bank branch users input data using this mode, and what are the requirements for creating specific login credentials for this mode?

In the Manual entry mode, complete data of farmers/borrowers of KCC, along with information about loans sanctioned and eligible interest subvention claims and PRI (prompt repayment incentives) is directly entered on the KCC-ISS portal by the respective bank branch users. To use this mode, the following requirements must be met:

1. Specific login credentials: Bank HQ Admin creates specific login credentials for bank branch users on the Pradhan Mantri Fasal Bima Yojana (PMFBY) https://pmfby.gov.in/ . This allows the branch users to access and input data on the KCC-ISS portal.

2. Direct data entry: Bank branch users enter the required data manually on the KCC-ISS portal using the login credentials assigned to them. They use a pre-defined template to input the complete data of farmers/borrowers and other necessary details.

11.What options are available to users if beneficiary details are found or not found during the application process?

If beneficiary details are found during the application process, users have the following options:

1. If existing loan account numbers are fetched, users can choose an existing account number from the dropdown and proceed. The account details will not be editable.

2. If beneficiary details are found, but no loan account number is present, users can select a new account number and proceed with updating the remaining tabs.

12.In Hybrid mode, which fields can banks share through the API if only 20 out of 44 application form fields are available in CBS?

In Hybrid mode, banks must mark fields available in CBS as "Yes" through the API. The remaining fields must be filled manually. Some fields are mandatory for API sharing; refer to the Integration Document for details.

13.Is the crop code necessary in the API and activity detail?

Crop names and code are integrated in the portal and APIs respectively.

14.What is the maximum number of applicants in an loan application on KCC portal?

1 Primary farmer and 20 joint accounts.

15.Can banks upload data through Excel files to the portal?

No, data entry modes are restricted to the three predefined methods.

16.Some bank teams are encountering errors in decryption response. How to resolve this?

The method has changed from base64 to HEX. Banks need to adjust their end. Testing sites are provided in the Integration Document.

17.If a field is marked as "Yes" in API configuration, is it also mandatory?

Yes, fields marked as "Yes" in API configuration are mandatory.

18.How can bank branches not present in PMFBY master be added?

HQ Admin can create bank branches on the PMFBY portal.

19.Should banks submit NPA accounts on the portal?

Submit details of all KCC accounts where IS and PRI claims have been made.

20.How should co-applicant details be provided for group loans?

Enter SHG/JLG name in "Name" field and Primary Members name in "Name as per Aadhaar" field.

21.Must banks submit data separately for different activities?

Yes, data should be submitted separately for each activity.

22. How to manage cases where an account is closed and reopened within 6 months?

Both accounts will be treated separately with respective data submission.

23.How should banks manage multiple KCC accounts for a farmer with different banks?

All banks must submit respective data; eligibility decisions follow scheme guidelines.

Aadhaar Related Queries

1.What to do about missing Aadhaar in case of Joint accounts?

Aadhaar is mandatory for the joint accounts as well. All the member``s Aadhaar card needs to be mandatorily included in the portal. If the same is missing, kindly update it through e-KYC. The banks need to ask all the beneficiaries to access the nearest Common Service Centre and get it done through eKYC.

Edit the loan application and verify the joint holder``s Aadhaar details.

2.What to do if name matching with Aadhaar still not getting approved?

Contact the farmer and fetch latest details of the customer through e-KYC done at the nearest Common Services Centre (CSC). Take the copy of e-KYC documents from the farmer and update his records. Also, check the name in the PMFBY database available with the branch manager. Update the farmer``s detail accordingly and proceed.

Further, if all records match and yet the Aadhaar is not getting approved, kindly re-try as there is also a probability of technical glitches from the UIDAI server.

3.What to do if AADHAAR is unavailable particularly for accounts from the Northeastern region?

As per RBI circular on MISS-KCC dated November 23, 2022 and also updated circualr dated January 2024, Aadhaar is a mandatory document. https://rbidocs.rbi.org.in/rdocs/notification/PDFs/MD18KYCF6E92C82E1E1419D87323E3869BC9F13.PDF

However, for accounts created before November 23, 2022 also, it is mandatory to link them to the Aadhaar database, wherever possible. In instances, where Aadhaar linkage is not possible due to any circumstances, particularly in the North-eastern region, kindly reach out to the Ministry through your official channels.

4.Is Mobile Number mandatory for MISS-KCC?

The mobile number is mandatory for both IS and PRI claims through KRP. However, while creating a loan application, it is optional (yes/no). Despite this, if the mobile number is not updated in the loan application, the portal will not allow the creation of the claim application.

Therefore, if you encounter this situation, please update the mobile number in the existing loan application before creating the claim application. In the case of missing mobile number details for the loan application, reach out to the customer and fetch his details.

5.What to do in case of missing Aadhaar?

As per **point 2(vii) of the RBI circular on Modified Interest Subvention Scheme for Short Term Loans for Agriculture and Allied Activities availed through Kisan Credit Card (KCC) during the financial years 2022-23 and 2023-24 dated November 23, 2022,** Aadhaar linkage has been made mandatory to avail the benefits of the short-term loans in 2022-23 and 2023-24.

Therefore, in case of missing Aadhaar, kindly reach out to the customer and fetch his Aadhaar details. Kindly ensure that all Aadhaar beneficiaries of the bank are linked to Aadhaar.

6.What to do in case of Aadhaar Name Mismatch?

For customers` existing in KRP, PMFBY and PM-KISAN database, a 70% match in characters of the name is approved by the system while for customers not existing in any of the above databases a 100% match is exercised by UIDAI. Kindly update the Aadhaar details as per the latest “Know Your Client (KYC) Identifier” e-KYC done for such customers since there is a probability that Aadhaar details may have been updated after banks had submitted the details.

Branch Mapping Related Queries

1.What to do if one IFSC is mapped to 2 branches?

In this case Bank has to share details over email to Ministry KRP IT team, which IFSC is correct for the branch, Team will perform actions and correct the same

2.How to handle inactive users?

The admin can either delete or activate the user. However, to ensure smooth transition of all the data to the active/current user, it is strongly advised not to delete users but to keep them as inactivated.

Loan Application Related Queries

1.How to treat the applications in case of multiple withdrawals?

Consider the case where a farmer is taking multiple loans, and enhancing his withdrawal amount each time. In such a case, the **maximum disbursed amount** would be taken as the disbursed amount for calculation of IS.

2.How to treat the applications in case of multiple sanctions?

Consider the case in which the farmer is settling his claims before 365 days. In the case of complete settlement where farmer doesn``t take the loan again within the same financial year, only one application would be created. However, if the farmer is again taking the loan within the same financial year, **multiple applications will be created starting from each fresh sanction date.**

3.How to deal with duplicate applications?

Revert the applications from HQ admin, then locate them at the user level in draft mode and delete them from there. The applications can be identified based on Aadhaar details and sanction dates. **There should not be a claim application entry against this duplicate loan application.**

4.What is the social category status for loan application?

Consider the social category of the farmer as per the bank records.

5.Is Aadhaar mandatory for creating loan application?

No. Aadhaar is not mandatory for creating a loan application but at the same time it is **mandatory for submitting a claim application.** Therefore, it is strongly advised to include Aadhaar details in the loan application as well in order to avoid rejections at a later stage.

Claim Application Related Queries

1.How to handle NPA Accounts?

In case of an account being declared NPA within one financial year, it is not eligible for PRI but at the same time, it is eligible for IS till the time it has been declared NPA. Banks may please note that it is mandatory to review each account every year.

2.How to identify an entry as partial or complete and rollover or non-roll-over?

See the illustrations.

3.What is the SOP in case of deceased customer or closed accounts?

In case of death of a customer, the bank can claim for IS only till the date of death as per the death certificate submitted to the bank. Further, if the loan is repaid within 365 days then irrespective of the date of death, the account is eligible for PRI. However, if the account is closed before 365 days, the account is ineligible for PRI and IS can be claimed only till the date of death or closure of account, whichever is earlier.

Please refer to RBI circular on KCC-MISS date 23 Nov 2022- https://rbidocs.rbi.org.in/rdocs/notification/PDFs/FCISS20222344C72345B51E4582A0857A47CC40AFAF.PDF

4.How to deal with unsettled claims for FY 2021-22

Please stay informed that **RBI will not process any claim manually. Since the digitalization of MISS commenced on 1st April 2022,** all accounts with sanction or review dates prior to this period must be entered into the system with a default date of 1st April 2022. This will allow for the submission of additional claims related to the financial year 2021-2022. For these additional claims, a separate loan application should be submitted up to the next review date. Subsequently, another loan application must be submitted for regular claims pertaining to the year 2022-2023.

Please follow illustration 3 for clarity regarding the same.

5.Do the banks need to enter NPA accounts as well?

For the FY 2022-2023, if any loan is converted into NPA, a new loan application needs to be created with a sanction date of April 1, 2022. Additionally, for IS claims, the disbursement date should be from April 1, 2022, until the date of declaration as NPA.

6.IS KCC-MISS available for account having sanction limit greater than 3 lakh?

There is no sanction limit for KCC accounts. However, the limit is applicable only in case of raising claims for Interest Subvention (IS) and Prompt Repayment Incentive (PRI). The IS and PRI benefits on short-term crop loans and short-term loans for allied activities is available on an overall limit of 3 lakh per annum subject to a maximum sub-limit of 2 lakh per farmer in respect of those farmers involved only in activities related to animal husbandry, dairy, fisheries, beekeeping etc.

Refer to RBI circular on KCC-MISS date 23 Nov 2022- https://rbidocs.rbi.org.in/rdocs/notification/PDFs/FCISS20222344C72345B51E4582A0857A47CC40AFAF.PDF

Claim Consolidation And Verification Related Queries

1.What to do in a case when claim consolidation entry - not able to proceed because of social category mismatch of few KCC accounts?

Firstly, check for social category mismatch.

1. Download Latest Report: You can now download the latest report in the Claim Summary module from your Branch Head login.

2. Update Social Category: You can update the Social Category of a farmer for an approved loan application from your Branch Head login.

3. Revised Deadline: Please note that the deadline for submitting IS/PRI claims has been revised. An updated portal message has been posted.

Action Required:

1. Verify and Update Social Category: Please recheck the social category of farmers as per your branch records and update from your end if necessary.

2. Revert Lots to Branches: If you have pushed lots to ZO, RO, or HO, please revert them to your branches to make the necessary changes.

Steps to Change Social Category for Approved Applications if Claim Verification completed by Branch Heads:

1. Claim Verification

a. Branch Head get it reverted from RO/ZO/HQ

b. and Branch head Delete the Reverted lot/Drafted lot

2. Claim Summary:

a. Download latest Report

b. Check with banking system whether social category match or not

c. If not, match then Navigate to Dashboard.

3. Dashboard:

a. Navigate>Loan Application

b. Filter approved Records

c. Update Social Category

4. Claim Summary:

a. Now Download Latest Report Again

b. and Create Claim Summary Accordingly

5. Claim Verification: Proceed for Claim Verification again

2.What to do in case of auto logout?

It may be due to **multiple users logging in at one time and also multiple logins with same IDs.** Please ensure that each ID is used on only one system at a time. If multiple users are using the same credentials and logging in on multiple systems, the first user will be logged out. Create safe and protected passwords to avoid multiple logins from same ID.

However, if the situation persists try the three options mentioned below: a. Do hard refresh **(Ctrl+Shift+R),** b. Remove temporary files. Type **%temp%** and press enter. This will open the temporary files folder. c. Remove history **(Ctrl+H).**

3.What to do when claim summary not visible or unable to view lots after claim summary generation and verification? / What to do when no accounts showing for claim entry to the `maker`?

Perhaps the claim summary was created by another branch head. This needs to be checked in another branch head IDs as well. **It is advisable don``t delete old IDs but keep them inactive.**

The claim summary needs to be transferred from one branch admin to another branch admin. Please get in touch with our KRP team if you require any assistance.

4.Why claim summary not getting reverted with a message "Lots already created"?

RO/HQ (as per bank hierarchy) can decline the claim Summary.

RO/HQ has module from where they can decline the approved claim Summary from branches to do the correction, with the conditions:

a. Branch Head should not have created lot in Draft/Submitted/Processed/RO Reverted list of branches.

b. If Lots are in Branch Head Draft list, Delete it.

c. If lots are in Branch head Submitted/Processed list, ask upper hierarchy level user (RO/ZO/HQ) to revert the lots, once lots reverted.

d. Now Branch Head has to approach to RO/HQ (as per bank hierarchy) to Decline Claim Summary. Once RO/HQ declines, the declined claim summary will be displayed in Claim Summary list to branch head with edit option where Branch head can modify and save/submit. Branch Head has to delete lots from his/her RO/ZO reverted list.

First, identify if any lot was created against this claim summary. If a lot exists and has been submitted, then revert the lot from the hierarchy (RO/ZO/HQ). Once the lot is reverted to the branch admin, the branch admin should delete the lot and release the claims. Only then can HQ/RO revert the claim summary.

5.What to do in case of "Claim summary already exists" related issues particularly the case where claim summary not visible to even RO/ZO and HO?

This issue is occurring because there might be a chance that two branch head IDs have been created for a branch and one branch of the branch heads had created claim summary and his user ID has been deleted or deactivated. Now, when the new Branch Head tries to create Claim Summary with same criteria, "Claim Summary Already Exists" error pops up.

In this case the Bank has to share all the branch head IDs of that branch to KRP Team over email and KRP IT Team will perform actions to transfer created Claim Summary from one branch head to another branch head.

Audit Certificate Related Queries

1.Does the audit certificate need to be back-dated?

No, the digitally generated certificate needs to be submitted with the signature from the recent statutory auditor. It is also not required to get it signed from the older auditor. The banks may use older audit certificates for FY 2022-23 as a reference for auditor's signature.

2.What are the documents required for non-audit branches?

You may choose to make your branches as non-audit and get the digitally signed auditor certificate only at the HQ level. In this case, the branch Head will provide a certificate which will be uploaded on the portal in claim summary generated at the branch level. You may also refer to the sample certificates provided in the RBI guidelines for the same.

3.How to change audit configuration?

Send a **request on the letterhead** to the ministry requesting for change in audit configuration if it had already been set.

4.What is the process for getting the digital audit certificate?

After claim consolidation at the HQ level, the audit certificate would be auto-generated from the portal, separately for all the activities namely Crop loan, animal husbandry and fisheries.

This digitally generated certificate needs to be signed by the statutory auditor either digitally or manually and then the same can be uploaded on the portal for submission to the RBI.

5.Can multiple lots be sent with multiple audit certificates?

As has been clarified by **Reserve Bank of India** (RBI) and **National Bank for Agriculture and Rural Development** (NABARD), banks can send multiple lots with multiple audit certificates. The banks can get the digitally signed auditor certificate from the portal after claim verification and get it signed by their auditor. Please be aware that the **RBI** or the **NABARD** will reject claims if there is any discrepancy between the data on the KRP and the audit certificates provided.

6.Is it required to send the hard copy of the digitally generated certificate to RBI?

Yes. It is mandatory to send the hard copy of the digitally generated audit certificate to the RBI for final claim submission.
